PROFESSIONAL SUMMARY

Strategy and operations professional with **8+ years driving measurable outcomes** through SQL analytics, incentive system design, and cross-functional execution. Built analytical frameworks supporting **$1B+ in operations**; redesigned partner ecosystems across 140 distributors and 95 territories to deliver **20% annual revenue growth**. Proven ability to structure complex, ambiguous problems into executive recommendations — aligning Finance, Sales, Supply Chain, and IT on implementation.

CORE COMPETENCIES

SQL & Large Dataset Analysis • Business Strategy & Operations • Incentive System Design & ROI Optimization • Cross-Functional Program Leadership • Executive Communication & Data Storytelling • Hypothesis-Driven Analysis • Forecasting & Business Modeling • Product Activation & Ecosystem Growth • Tableau • Power BI • Python

PROFESSIONAL EXPERIENCE

Data Analyst II | **Allegheny County Dept. of Human Services** | Pittsburgh, PA *Jul 2023 – Present*

Lead strategic analytics for $1B+ in public service operations across 8 departments, delivering insights to executive leadership on programs serving ~200K residents annually.

- **Drew insights from complex SQL queries** across 4–5 relational datasets and 100K+ monthly billing records — performing trend analysis, anomaly detection, and reconciliation to drive operational decisions for department heads.
- Designed a financial reconciliation framework spanning 8 departments and $1B+ in budget operations — identified rate mismatches between contracting and payment teams, preventing **$2M+ in billing errors** that had gone undetected.
- Developed comprehensive business intelligence dashboards in Tableau and Power BI, enabling department leadership to monitor financial trends and operational KPIs; reduced reporting cycle from **5 days to 5 hours** through Power Query automation.
- Analyzed **150+ program budgets** to identify underutilized allocations, producing strategic recommendations that enabled leadership to reallocate funding toward highest-impact initiatives.
- Communicated data-driven findings to senior stakeholders across Behavioral Health, Mental Health, Children Youth & Families, and Community Services — translating ambiguous operational data into polished executive narratives.

Sales Operations & Strategy Lead | **Bajaj Electricals** | Chennai, India *Jun 2017 – May 2023*

Owned data-driven strategy and partner ecosystem analytics across 95 territories, 140 distributors, and 6,000+ retailers in one of India's largest consumer electronics distribution networks.

- Redesigned partner incentive programs using tertiary consumer sales analytics — shifted rewards from volume to margin, driving **20% annual revenue growth** and improving sales mix profitability across the distributor network.
- Developed territory planning and quota allocation models using category and distributor performance data; guided partner network expansion and salesforce deployment across 95 territories to maximize market penetration.
- Increased retailer activation from **15% to 50%** on premium lines in 3 months — via targeted analysis of comparable product adoption patterns and redesigned pricing strategy across 6,000 retailers.
- Built demand forecasting model covering 200+ SKUs, reducing stock-outs by **60%** and improving inventory allocation decisions aligned to seasonal and regional sales cycles.
- Generated **$2M in revenue** during COVID lockdown with zero budget — launched WhatsApp + Google Forms campaign converting 20% of retailer network on aging premium inventory.
- Aligned Finance, Sales, Supply Chain, and IT on incentive rollouts — coordinating rebate approvals, quota planning, and merchandising across 95 territories.

Sales Leadership & Commercial Roles | **Bajaj | Godrej | Philips India | Asian Paints | Panasonic** | India *2004 – 2017*

Progressed through frontline and regional leadership roles managing multi-tier distribution networks and teams of 4–8 members.

- Designed territory quota plans, incentive structures, and performance tracking systems; led channel strategy across multi-tier reseller ecosystems — improving product availability, retail coverage, and market penetration.
- Developed pricing and sales analytics frameworks to optimize channel performance and drive market share expansion across regional territories.

EDUCATION & SKILLS

EDUCATION

PG Diploma, Data Science & Analytics
McCombs School of Business, UT Austin • Dec 2022
B.Sc. Mathematics • Bharathidasan University • May 2004

TECHNICAL SKILLS

SQL Tableau | Power BI | Python
Excel Advanced Modeling | Power Query | Statistical Analysis
Forecasting Models | Dashboard Development | Reporting Automation
